

STILL BOLTING FROM G. O. P. RANKS

Harding's Hedging on League of Nations Fails To Prevent Exodus From Party

Louisville, Ky., Oct. 18.—Altho Senator Warren G. Harding has qualified his Des Moines speech in which he rejected the League of Nations with or without reservations by later announcing that he was for a league yet unborn, he has not been unable to check the bolting of pro-league republicans. Every day republicans who favor the League are washing their hands of the mush candidate, and announcing for Cox and the League of Nations.

Among the most noted of these recently are Roger W. Babson, the well known business statistician, Ray Standard Baker, a noted writer, George Foster Peabody, for many years a republican, Chas. A. Towne, a former republican United States Senator from Minnesota. Miss Mabel Choate, daughter of the late Joseph A. Choate, former ambassador to Great Britain, and Herbert Myrick, of Massachusetts. Both as delegates to the National Republican Convention supported Herbert Hoover, but declined to follow him in supporting Harding.

Deplores Harding's Nomination
In writing to Prof. Irving Fisher, who is chairman of the organized pro-League Independents, Mr. Peabody says:

"The more the campaign develops the more appealing seems the evil that would follow the election of a man of Senator Harding's extraordinary calibre. I think the most serious indictment of the republican party leaders is that at a world's history when the constitutional responsibilities, obligations and vast power of the President of the United States have been demonstrated as necessarily inherent in the office and imperative upon the President himself, such a choice as Senator Harding should have been made."

Senator Towne wrote the following to Gov. Cox: "Henceforth concentrate on the covenant. Make it a holy covenant crusade to the end. Other issues can wait two years. This has waited 20 centuries and if we fail in our duty now God alone can measure the cosmic epic of recurrence."

COOLIDGE IN KY.

(By Associated Press)
On Board Governor Coolidge's Special Train, Oct. 18.—Governor Coolidge and other republican leaders early today struck into Kentucky, where two days will be spent campaigning from the rear platform and at town meetings. At Mt. Sterling a big crowd turned out. At Danville, where he predicted a republican success in November, Coolidge held a reception.

The Coolidge train is due to arrive in Richmond at 4:15 o'clock this afternoon and to make a short speech at the passenger depot.

TROOPS CLASH SUNDAY

(By Associated Press)
London, Oct. 18.—Kovno dispatches today assert several engagements occurred Sunday between the Polish and Lithuanian troops on the front between Vilna and Kovno. The losses on both sides are heavy, the Poles attacking in heavy force, using armored cars.

PALE, SALLOW WOMEN
Told How To Acquire the Glow of Health

Women who are pale, sallow, over-worked, no energy and hardly able to drag about, if you could only realize what Vinol, the cod liver and iron strength creator and body builder will do for you we are sure you would not rest until you had tried it.

Miss Phyllis Jones says "I was run-down, pale, nervous, thin and had fainting spells. My doctor prescribed Vinol. I have gained rapidly since taking it and look and feel better in every way." Vinol enriches the blood with multitudes of healthy red blood corpuscles and what Vinol did for Miss Jones, it will do for every pale, sallow, weak, overworked woman in this vicinity. It

TARVIA APPLIED; STREETS IMPROVED

Local Civic Interests Increased as City Improvement Work Continues—County Next

There is spreading of tarvia with impunity upon the part of the crew of workmen accompanying the machine, together with a number of city employees, since the material has arrived, and the work on East Main street from Big Hill avenue east has already been completed, as has that of Estill avenue from Main street east to Irvine street. This work has been anxiously awaited by many residents of the city for some time. However, it was not the intention to have it started until such a time as the county would be ready for its part of the work to be taken up by the time the tarvia had been placed on the city streets. Councilman Terrill, according to some of the residents who were assured by him that they would receive all the tarvia desired, would be a successful candidate for any office he sought. One of them said, "Councilman Terrill said he would let us have our street finished first, but I guess there are so many asking him that I don't know whether we will be first or not," and added with emphasis, "He said we could have all we wanted, and you can bet on that and we will have a nice street just as sure as he made the promise, which he did." This man was a resident of lower Walnut street, and the work will be extended to that thoroughfare at once. The residents there have been spending both money and energy in satisfying their civic pride during the summer months, a fact appreciated by many and a most important example for all.

With the finishing of the work in the city, the crew of men will go to the country and extend the work. It is probable that all entrances to the city will be treated, beginning with the end of the paving, thus making the entrance to the city for perhaps a distance of a mile or more very attractive and eliminating much of the dust. This connection with the city paving, according to general opinion and desire, will render the city work more effective in many ways, besides adding to the appearance of the streets and highways in the country generally.

MUCH POLITICAL ORATORY TODAY

There will be plenty of oratory in Richmond today. Beginning at about four o'clock, the Republicans will have Gov. Calvin Coolidge, their candidate for Vice President, on his special train at the depot for a short address. Then Congressman James M. Robison of the 11th district, will speak here. Two men who fought in the war will speak tonight for the Democratic national ticket. They are Capt. Harry Miller, of Lexington, and Capt. Roberts, of Evansville, Ind. They are speaking especially to the ex-service men and will tell why they should support the Democratic ticket and the League of Nations. They speak at the court house at 7:30 o'clock.

COX ADDRESSES THE FIRST VOTERS

Syracuse, N. Y., Oct. 18.—Gov. Cox today opened his second eastern campaign with an address here to the first voters urging them to disregard partisanship and vote as Americans. He said to shout "America First" and then oppose the making of America first throughout the world, is to turn our backs on progress and on ideals which the framers of the Constitution wove into the soul of America. "Therefore," he added, "when I talk of the League of Nations I am presenting no new spirit but simply endeavoring to keep the faith of America."

SCORES OF HOUNDS FOR THE TRAIL

Many Enter For Derby Tuesday—All-Age Event and Bench Show Following Events

All roads lead to College Hill—that's the fox trail. It began Monday morning and continued throughout the day, with the result that there is one of the most extensive assemblages of notable hounds present ever recorded. The occasion is the twelfth annual convention and field meet of the Central Kentucky Fox Hunters' Association. Dogs are said to be coming from far and near, and many from near, since Madison county is reported to be very extensively represented. Trophies more elaborate than ever before, are to be seen in the Lane jewelry store this city, and the permanent home of some of them is Richmond and Madison county, if the word of local dog fanciers goes for anything, and it generally does.

President Robert Terrill is about the busiest man in the country outside of a campaign manager. He has been beseeching the wonderful powers for "not so much sunshine and a little more rain," but thus far the plea has been a vain one. However, rain may come Monday night, in which case it is said the conditions for the derby and other events would be perfect.

The registering and entering of dogs began at an early hour Monday morning and continued throughout the day. Registering will continue until Monday night.

There are already a number of visitors on the grounds and College Hill is taking on the aspect of a real for sure hunting center. President Terrill has selected Jeph Chenuault as master of hounds this veteran will have full charge, and that is all that needs to be said in this connection. When Jeph Chenuault has charge, everybody is satisfied. Dillard Hill, noted sportsman and entertainer, and whose presence causes all who know him to smile and be pleased with conditions, is already present as are a number of other notable personages. The residents of College Hill are as a unit in entertaining and furnishing accommodations.

Tuesday will be Derby Day. More than half a hundred dogs are expected to be entered in this contest of which the following are to be judges: Raymond Davis, Lancaster; Owen Million, Madison county; Jasper Maupin, Versailles; Miley Long, and Everett Green, Madison county. The All-Age event which will probably be held on Wednesday, will record what fanciers believe, the greatest event of the kind in the history of the association, since there is reported the largest number of dogs to participate. Judges of the Derby, who have no hounds in the all-age event, will be allowed and retained as judges in this and the events following.

- Coolidge, The Wobbler -

On October 13, 1920, the Associated Press sent out the following dispatch from Boston:

"A request by the League of Nations Day Committee, headed by President A. Lawrence Lowell, of Harvard University, that the governors of all states proclaim Sunday, October 24, as 'League of Nations Day' to promote a better understanding of the covenant was refused by Governor Coolidge today."

In February, 1919, tens of thousands of citizens of Massachusetts gathered in Boston and gave Woodrow Wilson, champion of the League of Nations, one of the greatest receptions ever accorded any American.

PRESIDENT WILSON CALLS MR. HARDING

(By Associated Press)

Washington, Oct. 18.—President Wilson today addressed a letter to Senator Harding relative to the republican nominee's statement Saturday that Harding had been "approached informally by a representative of French government about the new association of nations." "I need not point out to you," the letter said, "the grave and extraordinary inference drawn from such a statement," declaring France is punctiliously careful to observe all proprieties of international intercourse. The president wrote that he hesitated to "draw the inference to which I have referred unless I am assured by you that you actually made the statement."

Harding Now Quiet on the Subject

(By Associated Press)

Marion, Ohio, Oct. 18.—Senator Harding has declined since his Greer Castle speech to elaborate on his statement that France sent a spokesman to him asking that America take the lead in forming an association of nations. Officials at the Harding headquarters said President Wilson's inquiry on the subject had not been received, and it was said that a public reply would probably be made by the senator as soon as the message reached him officially.

It was understood later that Harding will make a reply tonight declaring the French government had violated none of the diplomatic proprieties.

Questions French Government

(By Associated Press)

Washington, Oct. 18.—President Wilson, according to Secretary Tumulty, also directed an inquiry to the French government. Tumulty would not say what form the inquiry had taken.

SUFFRAGE AMENDMENT

Washington, Oct. 18.—The supreme court today refused to advance the hearing of the suit brought to restrain Secretary Colby from promulgating the federal suffrage amendment. This precluded the possibility of the case being heard before the November election.

PETERSON CASE HAS BEEN REMANDED FOR RETRIAL

Washington, Oct. 18.—Upon government confession of an error, the supreme court today reversed the lower court's decree holding James A. Peterson, of Minnesota, guilty of violating the espionage act. The case was remanded for retrial.

Peterson was a candidate for the republican senatorial nomination in 1918 against Senator Nelson. He was sentenced to four years' imprisonment, his conviction resulting from an article he wrote for a Minneapolis paper derogatory to the United States senate.

THAT BOOZE RUMOR

Washington, Oct. 18.—Attorney General Palmer today directed that a "full and competent" investigation be made of reports that 40 barrels of whisky were withdrawn from bond at San Francisco for the entertainment of the delegates to the Democratic National Convention.

WHITEHALL DISORDERS

London, Oct. 18.—Disorders occurred in Whitehall today in connection with the miners' strike during a demonstration by unemployed men who had sent a delegation to Premier Lloyd George. Several persons were injured. The rioters were finally dispersed by the police.

Governor Coolidge, of Massachusetts, delivered an address of welcome to President Wilson, upon his landing on his return from France, in course of which he said:

"We welcome him with a reception more marked than ever that which was accorded to General George Washington, more united than could have been given at any time during his life to Abraham Lincoln. We welcome him as the representative of a great people, as a great statesman, as one to whom we have entrusted our destiny, and one whom we assure we will support in the future in the working out of that destiny as Massachusetts has supported him in the past."

WILL SOON START JACKSON LAUNDRY

(By Associated Press)

W. H. Wilcox, who has been busily engaged for some time establishing a new laundry at Jackson, came home to spend Sunday, and reports that he will be able to have his new business going within a week or ten days. He stated that the delay in the arrival of some of the machinery has caused him to be unable to open the establishment as early as he formerly anticipated. The machinery, together with the building, will form one of the largest as well as the most complete and modern laundries to be found in the Cumberland mountains, and it is said to be the first in that vicinity for many miles around. He will not move his family from this city at this time.

Mr. Wilcox is recognized as one of the oldest and best laundry men in this part of the country, and came to Richmond several years ago for the purpose of establishing the Model Laundry, and became so attached to Kentucky that he decided to stay. His Richmond friends wish him all the success possible in his new venture and feel assured that if satisfactory work counts this is assured.

VACATION OF FIREMEN

City Fireman Mose Nelson, who has been enjoying his annual vacation for the past ten days, resumed work Monday morning, with the result that Stone Maupin takes his turn. He will spend most of the time in the city and attending the Central Kentucky Fox Hunters' Association meeting at College Hill during the present week. Thomas Hardin, substitute, is officiating in a very satisfactory manner.

MEN WORK ALL NIGHT

Sunday night was no exception when it comes to moving material for the street pavers in order that the work be not delayed, and there was an all-night operation, with the result that sand, gravel and asphalt were plentiful Monday morning at an early hour when the day force of men went to work.

MAKING HOME BAKING EASY

A Book That Makes This Art of the Olden Days a Modern Delight

From all parts of the country come reports of a great increase in home baking. In fact, it has again become the fashion, as it was in grandmother's day, for women to take pride in telling about the good things they bake at home.

To encourage this great economy, and to make it easy for the beginner, as well as to give the experienced home bakers the benefit of the most modern discoveries, the Royal Baking Powder Company has published a most unique book which, in itself, is almost a course in the art of cookery. Turning the pages there is included a wealth of information most unusual in baking and cookery. Old and famous recipes have been improved and simplified, and on nearly every page there is something entirely new to serve as a surprise. Economy and ease of preparation are the keystones of the book.

Indeed, there is so much of value in this contribution to good living that one wonders how it all worked out. We find in the introduction that it is the result of three years of constant research and experimenting by the Royal Educational Department, which is conducted for the benefit of all housewives interested in the health, economy and betterment of the home table.

ARREST PARENTS FOR NEGLIGENCE

First Action Is Taken In Law Enforcement By Truancy Officer In Madison County

The first arrest of parents for negligence in sending their children to the county school, in accordance with the compulsory educational law, was made Saturday when a man and woman from the vicinity of Red Lick were brought to the city, where they were arraigned before County Judge W. K. Price.

The parents are said to have a number of children of school age who have not been in school, although the warning has been sent out. The parents are reported to have assumed a defiant attitude, with the result that Truancy Officer W. A. Johnson, who recently assumed office, issued summons for them to appear in court. They came and there was an immediate change of demeanor when confronted with the seriousness of their offense.

Judge Price heard testimony in the case and the defendants pleaded for leniency. The father of the children had but little to say. However, the mother pleaded with the court not to assess a fine, stating they needed all the money they had, and that she did not realize the seriousness of the offense, and did not believe the laws in this regard had to be obeyed. Judge Price, in a fatherly manner, went to work and informed the couple that just such practice was the cause of so much illiteracy in the country today, and that thousands of dollars was being spent for the benefit of the children, and that schools and teachers were provided to educate them, and laws were made to insist upon the children of school age attending, and said emphatically that this would be done, and gave them the alternative of either sending their children to school or the full penalty of the offense being brought to bear in their case. This caused the parents to be repentant, and upon their promise to obey the law henceforth and have the children in school immediately, the heavy fine was temporarily held up.

FIVE CANDIDATES FOR SCHOOL BOARD

The entry list for the November election of school board members for the county school board, according to the record at noon Monday, indicates there will be some changes in the membership of the board, since there will be one or two going out and the same number of new members.

According to the new law, Berea will not be eligible to vote, owing to the fact that the schools are graded there. They have made no movement yet as to an election.

The list of county applicants is as follows: R. O. Moberly, present member; Frank Hord, present member; Balis Wilson, present member; A. J. Million, present member; Dr. J. H. Rutledge, new applicant for membership.

It is understood that W. R. Hayden and W. A. Arbuckle, who have been members for some time, are desirous of leaving the service of the county, and should there be no further applications the list as it appears will be duly elected, since there is the full quota, five members, with none to take chances on defeat.

The ballots have been ordered, and this new phase of selecting the members of the board is said to be eliciting considerable attention. All those who are represented as present members have had years of experience and their services have been and are greatly appreciated. According to the list, which represented those making application at noon Monday, there will be but one change. There may be other applications filed, however, since this privilege will continue throughout Monday, when time for the petitions will close.

SKATING RACES GALORE

Skating on the new asphalt on First street, between Main and Irvine, was participated in by youngsters of that vicinity Saturday afternoon and until the hour of midnight, when the police believed it was time to send them to bed. There were skating races of various kinds, and a number of records made. The children were given the freedom of the spacious thoroughfare, after it was opened to them, during the entire day. It will be opened to traffic within a day or two.

Rifles and explosives found in a Kingston prison were found in time to thwart a prison plot.

WHITE HONORS LOCAL YOUNG MAN

Chairman of Democratic Committee Appoints Moynahan To Direct Service Men Club

Chairman George White, of the Democratic National Committee, has appointed Eugene Moynahan of Richmond, to head the work of organizing the service men in this county who are supporting Cox and Roosevelt. Mr. Moynahan is a veteran of the World War and his services as a soldier and a citizen have resulted in his being selected for this honor. Governor Cox has written him a personal letter in which he expresses his personal appreciation, stating that "It is with a full realization of your outstanding fitness for this work that I now, in the rush of my own campaign, turn for a moment to take the pleasure of expressing to you my personal appreciation."

"You are a man already marked in your community. You are a veteran soldier who hurried to the defense of your country in the hour of national need. Therefore, you have the right and the privilege of telling your neighbors what you fought for. I myself am doing my best as I understand it to interpret and to make real your ideals."

"Among those ideals was the thought, crystallized into determination, to fight a war to end war, to establish on the shambles of the great conflict into which we were drawn by inescapable duties toward ourselves and all mankind a basis for permanent peace. You who fought Over There and we who served at home must cooperate in full measure to keep faith with our dead."

Citizens generally, irrespective of party, will congratulate Mr. Moynahan on this national recognition which has come to him.

NEW SIREN IRRIVES; NOW BEING INSTALLED

It was a most earnest and pleasing smile worn by City Councilman Golden Saturday morning, and some said it resembled more than anything they knew of a proud father announcing his first born, but this was not the case; it was the arrival of the new siren to be placed on the city fire department building, and will replace the old-time method of sounding an alarm of fire.

My, Mr. Golden smiled again—and then again. "I knew it ought to be here pretty soon," he ejaculated gleefully, and then hied away to the office of the Kentucky Utilities Company, where he took the management in strict confidence and negotiated a contract for the establishment of the siren at the earliest possible moment. This proving successful, the new apparatus, which will be responsible for many being awakened during the hours of slumber, will soon be in its future place of operation. All sounds that can be recorded are combined in this one, for it is one of the newest and "modern in every respect" and will be installed in the next two days. The old fire bell will be sold to some smaller and less metropolitan city for use and the proceeds turned in on the bill for the Twentieth Century alarm.

IRVINE STREET IS BUSY THOROUGHFARE

Irvine, instead of Main street, is becoming the busiest thoroughfare in the city, especially in the eastern parts, where the main thoroughfare leading to the depot and into the country is blocked by the excavator. Sunday there was a steady line of autos and trucks winding their way in and out of the city as a result of the blocking of Main street. The finishing of the little piece of paving on Main street at First, however, will result in the full force of the pavers being turned loose on Main, with the result that 30 good working days, it is said, will close up the work, and mark the first preparation of Lamp-ton & Burks company getting out of town. Superintendent Waters thinks this will be all the time required to complete the work, and he is hoping for a continuance of favorable weather, since the work has been progressing steadily and rapidly since he took charge some time ago.

Rheumatism Comes From Tiny Pain Germs

First of all, get it firmly fixed in your mind that all the liniments in the world have no effect whatever on Rheumatism.

A very common form of Rheumatism is caused by millions of tiny disease germs which infest the blood. The one and only sensible treatment, therefore, is one which cleanses the blood of these germs, and routes them entirely out of the circulation.

This is why S.S.S., the greatest known blood purifier is so successful in the treatment of Rheumatism. It is a powerful cleanser of the blood, and will remove the disease germs that cause your Rheumatism, affording relief that is genuine.

S.S.S. is sold by all druggists. Free literature and medical advice can be had by writing to Chief Medical Adviser, 154 Swift Laboratory, Atlanta, Ga.

office, subject to the action of the Democratic party.

John Burroughs, the famous naturalist, is supporting the Democratic ticket for three reasons. First, he believes in the League of Nations; second, because Cox is for the league, and, third, "because Governor Cox is a stronger man of the two candidates, more progressive and more representative of the idealism of the nation." Burroughs' position is especially significant in the view of the fact that he worked and voted for the election of Abraham Lincoln. In Governor Cox Mr. Burroughs sees traits of resemblance to Theodore Roosevelt, particularly in the vigor and fearlessness of his public utterances, his dynamic qualities and his straight out and unequivocal statements of facts.

BLOOD IS FUEL TO THE BODY

Pumped Through the System By
the Heart it Sustains the
Muscles and Tissues

PEPTO-MANGAN HELPS BLOOD

Keep the Quality of Your Blood at
Its Best—It Means Vigorous
Health and Ability To
Accomplish

Blood acts like a fuel. Pumped through the body by the heart, it sustains the muscles and tissues. It renews them. It feeds the brain—the tissues of the eye and face. That is why people look so pale and lifeless when blood is impoverished. The body tissues are being supplied with weak fuel. The blood has not enough red corpuscles. You would not eat poor food with no nourishment in it; no more should you let the fuel that supplies sustenance to your entire body be inferior. Have good blood. Improve the quality and keep it at its best.

If you look pale and weak, if you have lost your enthusiasm and energy, if your blood is clogged with poisons, your system is being fed with a poor grade of blood. That is no way to go around. If you are not at your best, get at the source of the trouble right away. Put an end to half-living.

Take that ideal tonic, Pepto-Mangan, to tone up your blood and purify it. Get the full enjoyment out of living. Breathe fresh air, take exercise.

Be sure to ask for "Gude's Pepto-Mangan." It comes in convenient tablet form and in liquid. One has the same medicinal value as the other. There is only one genuine Pepto-Mangan and the name "Gude's" is on the package.—Advertisement. It

SCHOOL BOARD OF CITY UNCHANGED

The six members of the city board of education duly filed their applications Monday with the county clerk, in accordance with the new law, for the election which will take place on November 2. There will be no change in the personnel of the board, since there were no new applications filed at a late hour, and there are but the six applications on file.

The members of the board are all qualified and nominated and the only thing remaining is the formality of their election, since there is no opposition. The filing of the petitions by the local members of the board was done simultaneously. The fact that fourth-class cities were included in this new law was not given much attention until a recent date, and there were no applications received. The time passed and when the attention of some of the members of the board was called by Attorney John Noland

the following described land: Said sale will be had on what is known as the Home Tract.

1st tract containing 92 acres, and bounded by the Stony Run pike and the lands of Sam Baldwin and others.

2nd tract containing 25 acres, and adjoins the lands of Zerelda Jones and Rufus McCord, and others.

3rd tract containing 7 acres and adjoining lands of J. A. and Robert Turpin, and others.

4th tract containing 120 acres and owned jointly by Ed Davis, deceased, and Ritchie Wells, and adjoining the lands of W. A. Williams, J. A. and Robert Turpin, and others.

The pleadings, judgment and plat filed in the above styled action are here referred to for more complete description.

Terms—Said land will be sold on a credit of six and twelve months, the purchaser being required to execute sale bonds payable to the Commissioner with approved security and bearing six per cent interest from day of sale until paid, with a lien retained on the land to secure the payment of said bonds and interest.

MRS. ROSE E. TUTTLE, of Portland, Maine, who says she feels like she has taken a new lease on life since taking Tanlac. Her rheumatism and other troubles have been overcome.

"Tanlac is the grandest medicine on earth, and I just wish it was so every woman who suffers like I did could know what it will really do," said Mrs. Rose E. Tuttle, of 293 Congress street, Portland, Maine, recently.

"No one will ever know how I suffered," she said. "My stomach was so disordered I had to be very careful about what I ate. Potatoes and other starchy foods would completely upset me. Frequently after meals I would have terrible pains in my stomach, my breath would get short, and I would have a depressed and uneasy feeling about my heart. Often I was troubled with pains under my shoulder blades and I frequently had bilious attacks."

"I also suffered with rheumatism and this, together with my other troubles, was simply wrecking my health. I felt weak, nervous and run down all the time, and seemed to be losing weight and strength every day. My sleep was poor, and often I was in such misery I wouldn't close my eyes all night long."

"Before I had finished the first bottle of Tanlac I realized that I had at last found the right medicine. My condition improved daily as I continued taking Tanlac, my appetite picked up and I was soon eating three hearty meals every day without suffering in the least afterwards. That horrible indigestion has disappeared. I am no longer nervous, I sleep soundly all night and feel splendidly all day. My strength has been increased until I can now do all

my housework with ease. I am praising Tanlac every opportunity I have."

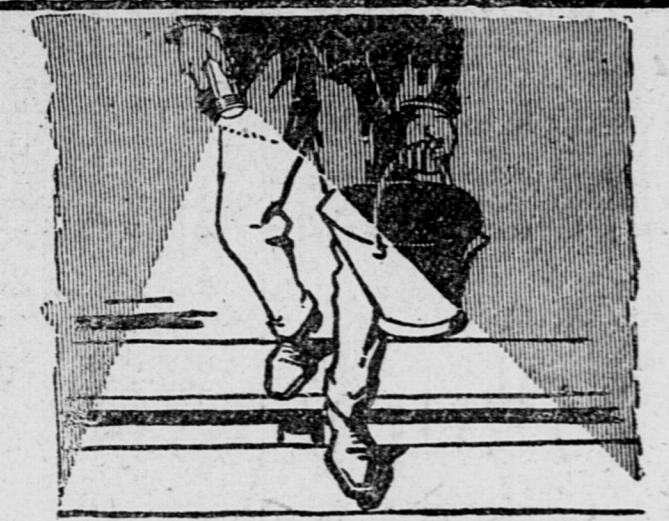

Tanlac is sold in Richmond by Stockton and Son; in College Hill by Ginter Brothers; in Berea by Welch Department Stores. It

FIRE PREVENTION IS INSISTED UPON

Prosecution Will Result For Failure To Make Proper Changes As Recommended

In accordance with orders from a Deputy State Fire Marshal some time ago, there are a number of additional fire preventions being provided about the city, since the second call has been made, and prosecutions will be in order where the orders are not obeyed, as well as a stiff increase in the price of insurance on property.

The officer, it recently became known, made more of a complete inspection than was realized, with the result that he found what he believes to be many places of business, buildings in general of various nature and educational institutions not properly provided with fire apparatus. This, according to the final warning, must be provided and immediately, or there will be prosecutions. The inspection covered the residential as well as the business sections of the city, it is said, and a list of failures to make proper provision for fighting fire and for fire prevention of unusual length was procured. This has been tabulated and the owners of the buildings or the occupants thereof are cautioned that the law is a state law and must be obeyed. As a result, there is some hustling upon the part of some who have thus far failed with the provisions of the law.

There will be no more warnings sent out, the 30 days given by the first inspector having elapsed. The next intimation those who have failed to comply with the law will be a summons for them to answer to a charge of violating the state law for proper fire prevention, and this, where a conviction is established, is accompanied by a heavy fine. It is understood that while many of the improvements demanded have been made, there are some who have failed to comply with the law.

The next visit of the inspector will be secret and by a man who is not known in the city, but who will be provided with the full list of improvements and preventatives asked, and those not having them as well as those who have not made the changes in way of cleaning out basements, etc., will be on the list for prosecution.

REGULATIONS OF THE WAREHOUSES

Tentative regulations governing tobacco warehouses, in which growers will be able to place their tobacco in storage and obtain receipts which are negotiable for loans, were discussed at a public hearing in Louisville Saturday morning.

Chester Morrill, F. B. Wilkinson and W. J. Ice, representing the Bureau of Markets, United States Department of Agriculture held the hearing, which was attended by tobacco growers, bankers and warehousemen of Kentucky.

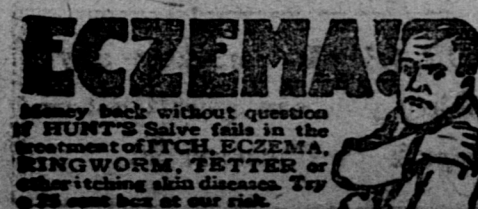

Those local warehouses unrepresented at the meeting expect to receive a copy of the proceedings this week.

The hearing is one of a series which is being held in an effort to obtain the views of persons familiar with tobacco on the new warehouse act. Morrill and Wilkinson made it plain that constructive criticism would be welcomed.

One tentative regulation provides that each 1,000 pounds of tobacco stored, this above all liabilities. Another regulation would require each warehouse to buy bond of \$5 for each 1,000 pounds of tobacco stored. A third with the duties of licensed warehousemen, inspectors, graders and weighers.

Should the project materialize warehouses will not be compelled to come under the regulation. It will be much on the order of national banks, it being optional with the warehousemen the same as it is with bankers, whether they qualify under the national law.

SWIFT PRODUCE REVIEW

Poultry is being marketed in increasing quantities and there has been some surplus on the market this week. Prices are ruling lower both for dressed and live poultry.

Eggs which are fresh are in good demand, and prices show little change. Production of creamery butter shows a marked increase over the same week last year and prices are lower on all markets.

CIRCUIT COURT WILL RESUME NEXT MONDAY

While there is nothing in the Madison circuit court in the way of hearings this week, next week promises to record a busy session, since there will be three murder cases for trial and the grand jury will resume operations. It is understood this body will have considerable work in the way of

inspecting the county buildings, etc., at the next session, which will close the work for this term. There will be the summoning of witnesses in the various cases resulting from the big number of indictments returned, and some of the cases will be attended by many witnesses and require considerable time in hearing.

The trial of John Keeton for the murder of Robert Powell will be the first case called, after which that of Thomas Gentry, charged with the murder of Dave Campbell, will be called. These are booked for October 25. It is probable they will be concluded within a short time, especially that of Gentry, after which the Andy Poff case will be called.

Mrs. James DeJarnette was host to a beautiful reception at her home on Tates Creek road, Thursday evening. About 25 ladies enjoyed the hospitality. A delicious salad course was served.

EX-RICHMOND MAN GOOD POLICE CHIEF

Enos L. Lanter, chief of police of Normal, Ill., is making a good record in that capacity, being chief of police, the entire detective staff as well as filling other capacities about the department of which he is the head. Lanter, who is an old Madison county lad, has just turned up a clever diamond thief, upon little evidence,

the youngster who purloined a \$300 diamond ring denying all knowledge of the theft. He was trailed and watched, however, for several days with the result that he was apprehended by Lanter, given the third degree in examination, when he gave up the plea and made a confession. He admitted having taken the ring, but could not conceive the police were aware of it. He was lodged in jail to await a hearing.

NEW SCHOOL BOARD APPLICATIONS IN

Law Pertaining To Mode of Selecting Officers Is Meeting With Approval

The applications of a number of well known men, it is said, have been presented for membership on the new school board, which, according to the new law, will be comprised by members by election. A non-partisan county board of education will be elected in each county in the state of Kentucky on Tuesday November 2. This election, it is expected, will revolutionize the rural school system of the state.

This board will comprise five members from the county at large who next fall will appoint a county superintendent.

On account of the national election, however, so far as representatives of the department of education have reported, little attention is being paid to the school election, and a majority of people have forgotten there was to be one.

These trustees, two of whom serve for one year, one for two years, one for three years and one for four years, are elected on a separate ballot, containing no party devices. The petition must be signed by 50 resident voters and filed with the county clerk at least 15 days before the election. That would be on or before October 18.

Only those residing in the rural districts are eligible to vote for or to serve as members of the county board. This excludes residents of the cities having independent schools and residents of graded school districts.

The new law pertaining to the election of the school board by popular vote is accepted with much favor by many residents of the county who feel that they will be in closer touch with the management of the school and its government generally.

THE MOST BEAUTIFUL CAR IN AMERICA

LUXURIOUSLY finished and equipped, our five-passenger Sedan model is everywhere acknowledged as holding a place of leadership among the finest motor carriages of this country and Europe. It is unquestionably one of the most exquisite creations in the fine car field.

A tremendous satisfaction is derived from its ownership, for it is, above all else, a car of practical utility—a car whose daily usefulness is entirely independent of both season and weather.

Built on the highly refined Six-42 chassis, this light Sedan model establishes a new standard of

efficiency is the operation of enclosed cars.

Its six cylinder motor, of original Paige design and construction, has all the speed that anyone could desire—together with an abundance of power which makes possible an acceleration from five to twenty-five miles per hour in nine seconds flats.

In short, the five-passenger Sedan has all of the essentials that make for complete comfort, efficiency and utility in a thoroughly fashionable car for general family use. It is easily, we believe, the greatest dollar-for-dollar value among enclosed cars on the market today.

AUCTION SALE

ON

Saturday, October 23

AT 10 A. M.

Having decided to devote my entire time to farming, I will on the above named date, sell my property in Paint Lick, Kentucky, known as the Burnam and Rucker Mill.

The lot is one of the most desirable in Paint Lick for business purposes. Lies on the railroad, subject to loading and unloading all freight right out of the car into the mill. Has a coal bin connected to mill, right on the side of the track. Plenty of room to handle all of the coal that Paint Lick would consume at any time.

One of the best stands for Mill, Feed and Coal in the state. Is a good commercial center, 12 miles from Lancaster and 12 miles from Richmond.

Will at the same time offer separately or with the house and lot, the following described machinery:

1 25 horse power Fairbanks and Morse Oil Engine, type V, best made.

1 set corn rolls in good condition.

1 set 24 inch French Burrs, gear drive, two good Meal Bolters; 2 good Corn Shellers; 1 good Corn Crusher.

1 25-barrel Midget Marvel Flour Mill.

1 pair of Wagon Scales, 22 feet long, in good shape.

About 1,000 flour bags; about 1,500 meal bags, about 700 new wheat bags; and 100 corn bags.

Will also sell on the same date one 15-25 horse power Oil Tractor, in good shape; 1 20-36 inch Case Steel Separator, with self feed and wind stacker; 1 pair of extra good six-year-old mules; 2 mule colts; 1 bay horse, 6-years-old, and a good driver.

Don't forget this splendid opportunity, and come and look over this prospect a day or two before the sale.

Good Land, Well Located

Location

In Madison county, 9 miles south of Richmond, 3 miles north of Berea, and half way between Potts' Mill and Dixie Highway, on good county road, just 1-2 mile from Dixie Highway.

"Think of this"—In three miles of Berea, close enough that you can send your children to one of the best colleges in the state of Kentucky.

Improvements

8 room house, 2 halls, 2 porches, cistern at door, garage or carriage house, all good outbuildings, 3 combination stock and tobacco barns, 2 corn cribs, 1 tenant house, ever lasting stock water, fine orchard. 8 acres of timber, walnut trees scattered over entire farm. You know this is an awfully good sign. 16 acres in corn, 2 acres in tobacco, 55 acres in meadow, 60 acres in clover, balance in grass.

This land lays well and can all be cultivated with a tractor. The soil is fertile and will grow anything.

Personal Property

At the same time we will sell for the Walker family their personal property, consisting of horses, mules, cows, and 25 head of cattle, farm machinery, household goods.

Our contract calls for an absolute sale without by-bid, so somebody is going to buy a good farm at the "High Dollar."

Subdivided

This farm will be surveyed and cut into several plats and offered in three tracts and then as a whole.

For further particulars see the owners or call at our office and we will be glad to show you over the farm.

Terms very liberal and made known on day of sale.

CITY STREETS TO BE THE BEST EVER

Tarvia Work To Start Soon and
Several Miles Will Be Treated
Before Winter

The first tarvia to be placed on the city streets, it is expected, will be put down some time next week, and indications are that the extension work on the several streets of the city will be finished before the city paving is completed. Residents of various parts of the city want the tarvia placed as soon as possible, and this, together with the contemplated sidewalk and gutter improvement under contemplation means that the streets of the city will be placed in good condition before winter, unless cold weather arrives at an earlier period than usual.

The workmen who have been busily engaged in both Fayette and Clark counties, are to close the task soon with the result that they will give their attention to Madison county. The tarvia company has a big force of workmen and machines which are to be used in the distribution and application of the new coat for highways, and it is expected that the first work in the city will be on Lower Walnut street, where residents first petitioned for the improvement. They are of the belief that this is the most opportune time to place the tarvia, unless there are too many heavy fall rains, and that the result will be seen even next spring.

The city council has promised that all the tarvia desired would be applied to the streets of the city and this is being looked after by Councilman Charles Terrill, of the street committee, who has an ample supply ordered. The extension work means that in several instances the street improvement will not be concluded with the ending of the asphalt streets, but the tarvia will be applied and extended, perhaps, far into the county, making the entrances to the city more attractive for a period of several miles in some instances. The finishing of this work as well as that of the streets inside the city limits, it is believed will make the streets generally more attractive and better than ever before.

CLAIM GINCH ON FANCY DERBY CUP

The best fox hounds in this and other counties, as well as a number from other states according to reports, are being put through the final training for entrance at the annual meeting of the Central Kentucky Fox Hunters' Association. Entrants will be received until Monday night. It is understood there will be a large number of hounds entered especially in the derby, more than for years. Officers of the association are jubilant over the prospects for the meeting. They state that a rain between now and Monday will be all that is required to render conditions very favorable. Preparations are being made for entertainment of a large number expected to be in attendance.

The trophies are the most elaborate yet offered. President Robert Terrill stated Saturday that he was not afraid of the dogs from out of the state and felt assured the Madison county dogs will be able to make a good showing.
